DSD SL 90-01

To: **Central Distributors and Diesel Service Dealers**

Subject: **Return of Obsolete Fiche Cards**

A request made by your Bosch Diesel Service Dealer Council in Kansas City was to introduce a policy and procedure requiring the return of obsolete microfiche cards. The reason for this is to prevent the BOSCH Diesel Microfiche from finding its way into the hands of unauthorized shops.

Beginning with the next update we will require that each DSD return a photocopy of the "Return" list (see attached sample) with the shop name, city and state printed on the lines provided and all the cards specified on the "Return" list to his Central Distributor within 3 working days from receipt of a microfiche update.

When the CD receives the obsolete cards (and "Return" list) from each of its DSDs, it will forward those cards to Bosch where they will be destroyed.

We are confident that the benefit resulting from the increased security of the Bosch Diesel Service Microfiche will outweigh the small inconvenience of returning cards. Again, we thank the Bosch Diesel Service Dealer Council for this excellent suggestion.

Sincerely,

Mike Kenworthy
